The following relates to daylight & nocturnal field birding only. Feeder watchers use a different form.

Maximum Observers:

Daylight	
Nocturnal	

Party hours* and distances (daylight only)

	Hours	Miles
On foot		
By car		

Party hours* and distances (nocturnal only)

	Hours	Miles
On foot		
By car		

* Party hours is the time one person or a group birds as a unit. If x and y bird together for 3 hr in the AM and z joins them for 4 hr in the PM, party hours =7. If z had also birded by herself for 4 hr in the AM, the total party hours = 11.
