Beak, Bone & Feather:
An Anthology of Poems About Birds

Edited by Patricia Thrushart with a Foreword by Tabassam Shah

"*Beak, Bone & Feather: An Anthology of Poems about Birds* is a project of reimagining. Here are humans in sympathy longing to see through the eyes of birds and seeing birds of all kinds with fresh eyes. Here is birdsong in human song—a double delight. What imaginings could be more necessary, as we contemplate the irreplaceability of these winged messengers in an age of environmental calamity?
— Brandon Krieg, Associate Professor of English, Kutztown University
